Internal evaluation

Kick-off Meeting

Date of the event: 2 of December 2021
Place of the event: Online on zoom platform – organized by the coordinator

Aims of the meeting

- Partners get to know each-other (fields, activities, interest in the project)
- Project aims, objectives, work plan, outcomes (general overview by the Coordinator)
- Discussions and agreements on accompanying activities (PM, QM, Dissemination)
- Starting the first activities related to R1

Participants

N	Participant name	Partner name	Partner's number	Acronym	Country	
1	Mária Hartyányi	iTStudy Hungary Számítástechnikai Oktató- és Kutatóközpont Kft.	P1	ITS	Hungary	HU
2	Gábor Lajtos	iTStudy Hungary Számítástechnikai Oktató- és Kutatóközpont Kft.	P1	ITS	Hungary	HU

12	Vince Láng	Discovery Center Nonprofit Kft.	P6	DRDC	Hungary	HU
13	László Krisztin-Németh	Discovery Center Nonprofit Kft.	P6	DRDC	Hungary	HU

EVALUATION

8 members of the staffs of the partner organizations took part in the evaluation of the meeting. They were asked 6 questions via a Google Docs questionnaire of which we could gain the responds automatically. Among the questions there were some referring to their personal data (name and their organization) while the others focused on the targeting of the project. Regarding the type of the questions both closed and open questions were applied with offering simple and multi-choice answers.

1. Questions on personal and organization data

Besides giving their names and the organization they belonged to, each participant gave his/her consent to publish pictures (photos, screenshots) taken at offline and online partner meetings. All agreed to recording the project meetings and publishing their presentations following the event.

For documentation we will take screenshoots during the meeting. This photos might be inserted into articles of the project website, or embedded in dissemination document.

8	6	6
I consent to publish pictures (photos, screenshots) taken of me at offline and online partner meetings.	I consent to publish the presentation documents presented by me at offline and online partner meetings.	I agree consent recording the meeting for preparing the minutes of the event.

2. Questions related to the project

In the second section, they were asked about *which vocational trainings they suggested to investigate and to develop digital learning content for*? *They were also asked to give their reasons for it.*

4 of them chose **gardening and gardening technician**. *(Because there are areas of shortage here*.)

1 suggested **IT courses** (3d modeling, company software development, web development, digital marketing) (*as the organization deals with such trainings only*)

1 suggested **agriculture**, **precision agriculture**, agriculture science.

1 person wrote **e-learning modules**, **agricultural practical trainings** (VET and further education).

1 participant didn't answer.

The aim of the following question was to investigate their level of understanding of the tasks in R1:
Based on the detailed description we sent you, do you have any question on R1 activities and regarding the tasks?

4 participants gave no answer.

1 asked: *Are the activities applicable to Tertiary VET students/teachers? Our Centre delivers only 2-year Tertiary VET courses (EQF 5) for students aged 19+.*

1 wrote: *Is our contribution limited to the field of agriculture and forestry?*

2 participants declared that they had no questions.

Summary

Summarizing the responds it turned out that the participants were all ready for collaboration and launching the project. Each partner organization were represented at the kickoff meeting and some of them even delegated more than 1 member of their staff. They all added valuable contribution to the design of the project at its beginning and the majority of them were clear about the tasks to be performed during R1.
